#### **Shapers Comments:**

The 9'4"EH is basically a thinner version of our 9'4"EB. Designed to yield up to 9'3" x 23-3/4" x 2-7/8".

Be very careful when starting the shaping process, this thickness is very close to shape. The existing bottom rocker is like 9'4"B and should be right on and work fine with this blank.

### **Shapers Comments:**

The 10'1EY is modeled after the original 10'1"Y. It will nicely shape between 7'7" and 10'0". The noticeable differences between our blanks and the original 10'1"Y is a little more thickness throughout the blank and a slightly wider tail. This blank also has a natural rocker.

Maximum dimensions after shaped should net:

10'0" x 24-1/8" x 3-3/8"
